NOTE: According to this list, the first 14 names should have been included in the 1825 census. The ones with an asterisk were missing, indicating they were living elsewhere in Quebec at the time of the census. The ones with the double asterisk I believe they were sons of the original settlers. The first 28 names should have been included in the 1831 census, but only the names that are bolded are actually listed for the Halesborough area.
